PU planetary mill jar

Model:

High-wear-resistant PU planetary mill jar for battery material and electronics industry. Minimizes contamination to ensure product purity and quality.

Technical specifications

Model specification	100ml-1000ml
Outer diameter (mm)	φ55-φ128
Height (mm)	38-108

These specifications describe the series. Confirm the selected model, power supply and configuration before ordering.

Highly wear-resistant polyurethane ball mill jars are grinding jars with excellent performance in the

electronics industry and battery materials. During use, the jar body is not likely to bring harmful impurities into the grinding materials, ensuring the quality of electronic products. The polyurethane ball mill tank developed by our company has an integral structure, generous arc angles, thick tank walls, easy sealing and tight sealing, transparent tank body, beautiful appearance, strong and durable. It is not easy to cause gap leakage, material storage dead corners and other undesirable phenomena during use.
