# Stainless steel roll mill jar

Model:

Versatile stainless steel roll mill jar for wet/dry grinding of metal and non-metal materials. Durable, customizable vacuum options available. Widely used in labs and industrial processing.

## Technical specifications

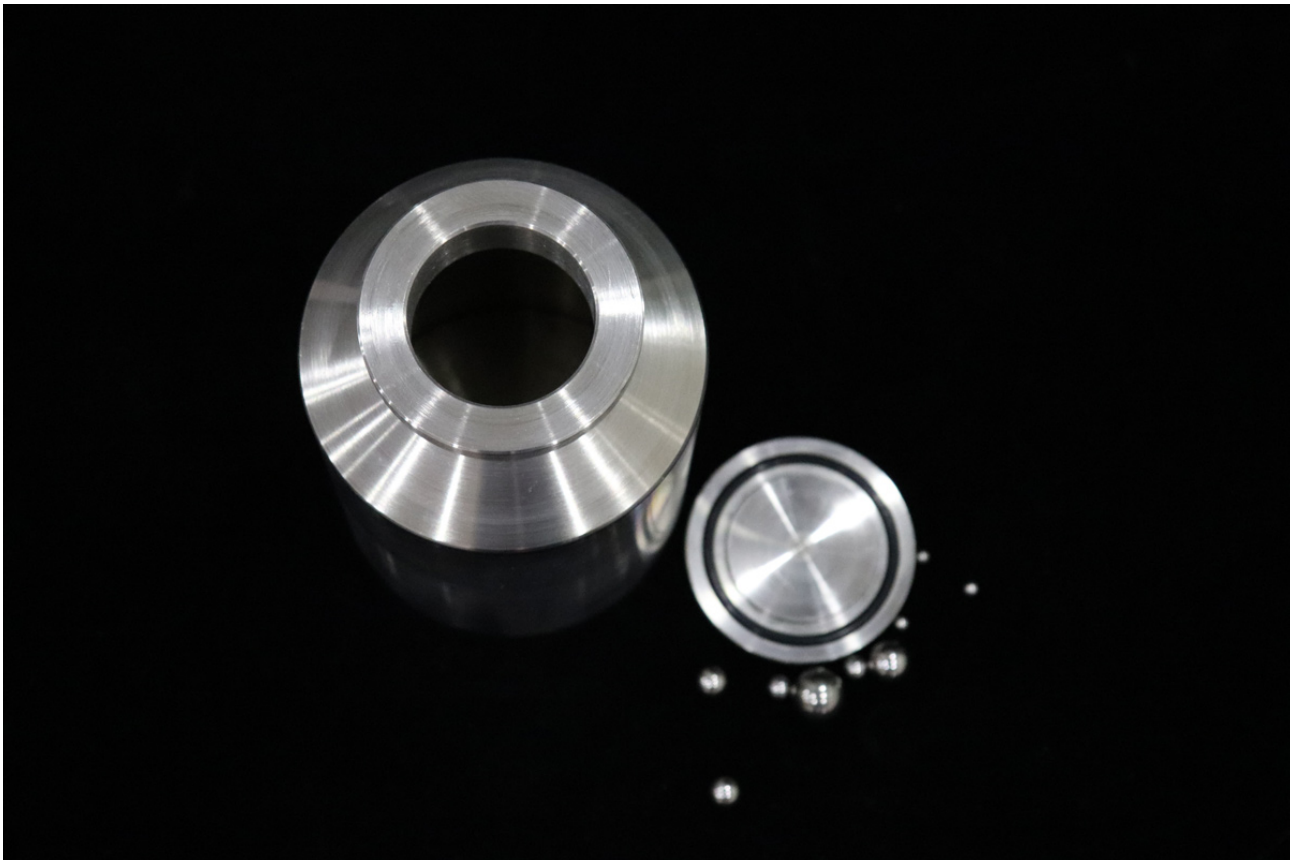

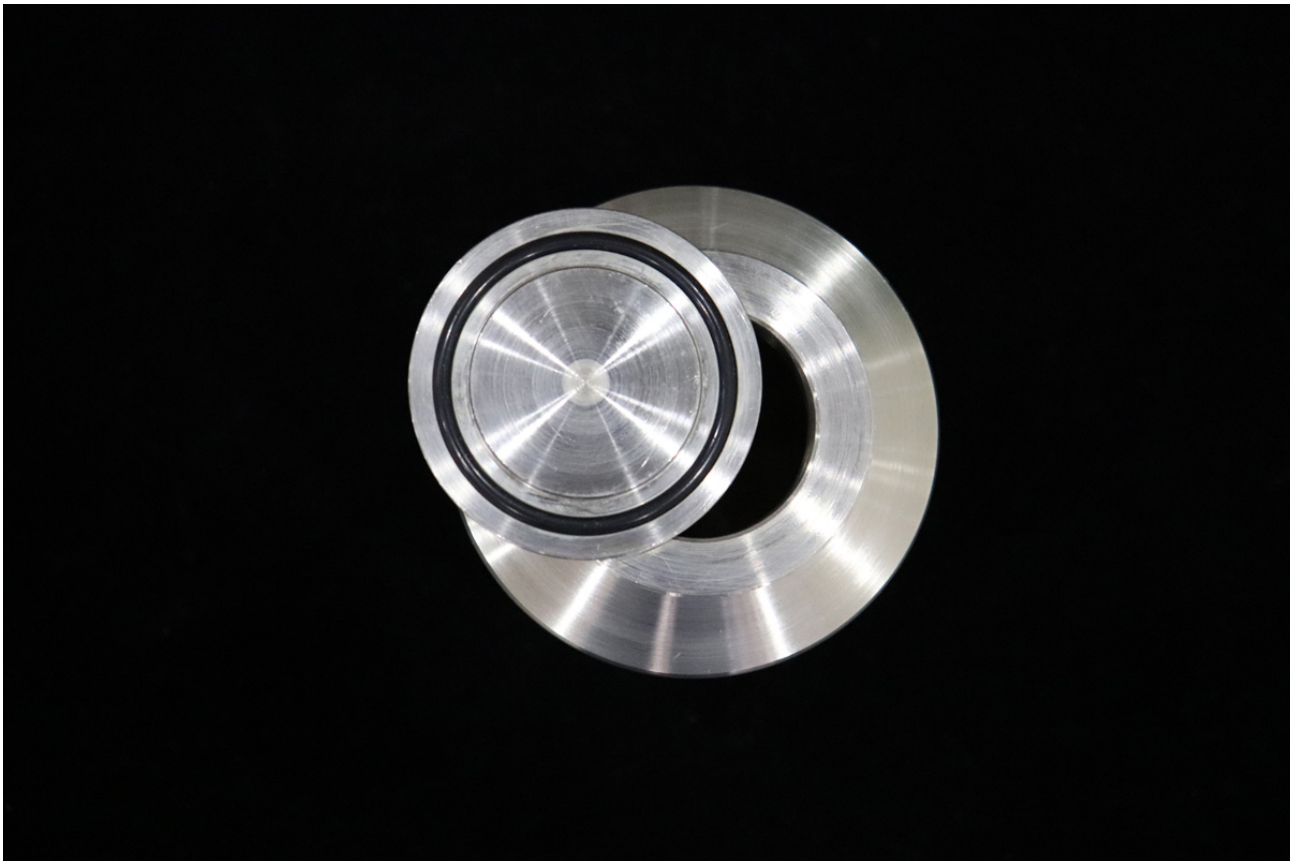

|                     |           |
|---------------------|-----------|
| Model specification | 500ml-15L |
| Outer diameter (mm) | φ88-φ271  |
| Height (mm)         | 138-350   |

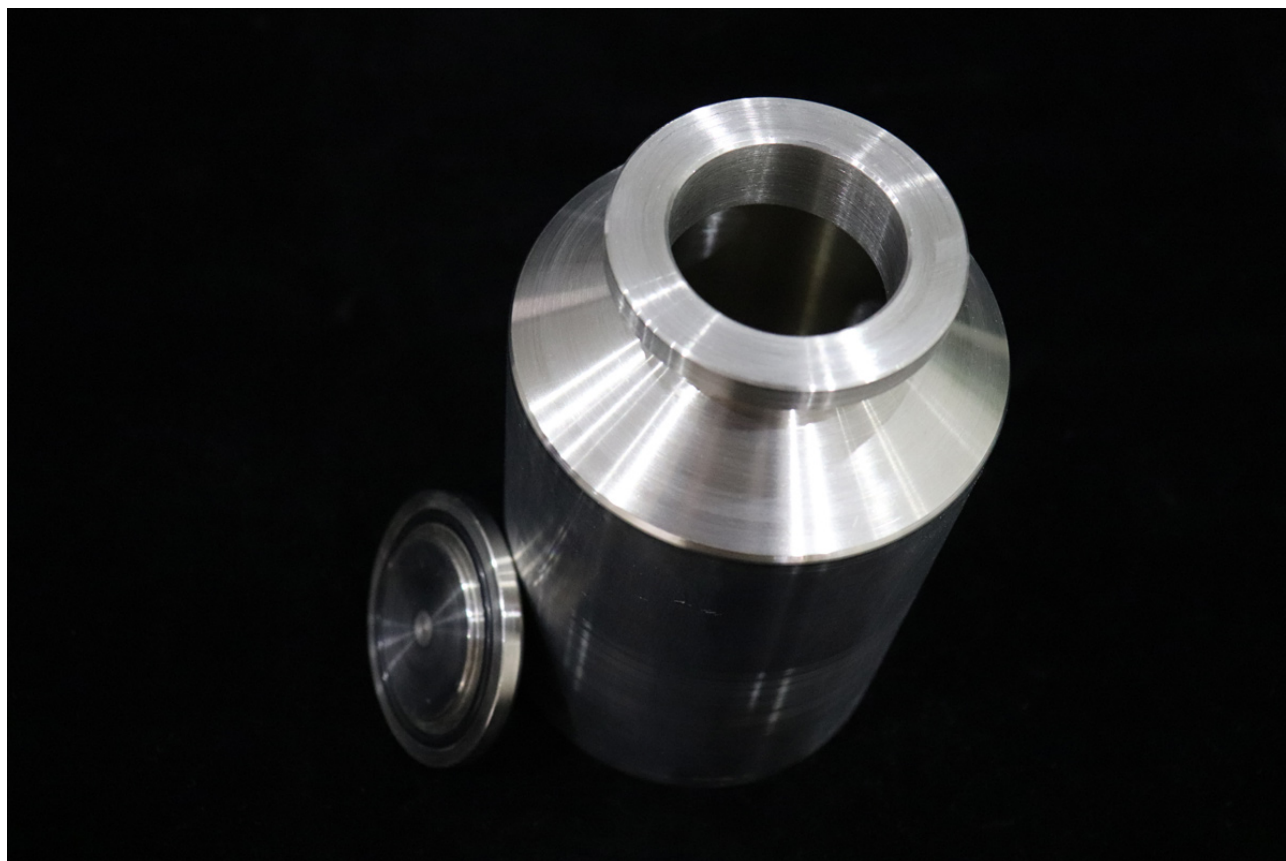

These specifications describe the series. Confirm the selected model, power supply and configuration before ordering.

The roller stainless steel grinding jar is a widely used ball mill jar and is a commonly used grinding jar for grinding metal materials and non-metallic materials. Different models of vacuum tanks can also be customized according to customer requirements.

## Technical parameters

| model | Outer diameter(mm) | Inner diameter (mm) | Height including cover (mm) |
|-------|--------------------|---------------------|-----------------------------|
|-------|--------------------|---------------------|-----------------------------|

|        |      |      |     |
|--------|------|------|-----|
| 500ml  | F88  | F82  | 144 |
| 1000ml | F106 | Φ100 | 172 |
| 2000ml | F131 | F124 | 206 |
| 3000ml | F158 | F152 | 217 |
| 5000ml | F178 | F172 | 269 |
| 10L    | Φ243 | Φ233 | 307 |
| 15L    | F271 | Φ263 | 347 |

**外观光洁  
美观实用**

**耐氧化  
耐腐蚀性强**

**较好的  
耐高温性能**

**较长的  
使用寿命长**

**经济适用  
高性价比**
